A FEW WORDS OF INTRODUCTION

The University of Puerto Rico at Humacao (UPRH) founded in 1962 is a sub-graduate public institution classified as a Bachelor/Diverse. The UPRH was licensed by the General Council of Education of Puerto Rico in 1997 and renewed in 2007 and has been accredited by the MSCHE since 1965. The enrollment of the UPRH consist of 4,314 student for the academic year 2010-2011, which 36% are from Sciences , 41% are from the area of Administrative Sciences , 18% from Arts and the remaining 5% are classified as transfers or others programs. The UPRH has a functional governance structure that enhances the fulfillment of our Mission, Vision, Strategic and Action Plans with the participation of all of our stakeholders. According to these four elements the units has developed their operational plans and presented their financial needs to the administrators. These ones manage the Institutional Budget according to the budget which is assigned by the UPR Central Administration; and other funds sources. However, there is a lack of integration between planning, budget and resource allocation.

According to this scenario we implemented through this Financial Plan an analysis of how the institutional planning process and resources allocation are assigned. The primary goal is to assure the academic and administrative excellence and the efficient fulfillment of our Institutional Mission, throughout a continuous improvement process.

UPRHUMACAO FINANCIAL SCENARIO

The UPRH obtain funds from diverse sources; however the general funds given by the state government are the ones that mainly sustained our operations. The current legislation provides 9.6% of the Commonwealth of Puerto Rico General State Funds to finance the UPR System. For the academic year 2010-2011, The General State Funds represented the fifty five percent (55%) in our Institutional Budget (Figure 2). The other forty five percent (45%) comes from external funds Figure 2).

Figure 2: General and External Funds Allocation

The Puerto Rico Planning Board informed that global recession has been affecting the island's economy since 2006, a situation which results in a reduction of the state's general revenues and in consequence a decrease in our Operational Budget. For 2010-2011, UPRH received a

budget of \$ 43,537,167 (**Figure 2**) from the UPR General Funds. This represents a reduction of eighteen percent (18.20%), compared to the adjusted budget for 2009-2010 of \$53,235,500 for a total funds insufficiency of \$1.9 million. UPR as a system therefore face a reduction of the Government Funds in the upcoming years.

As Figure 3 shows the University external sources of funds comes from state, private, federal and other funds. The federal funds are the strongest external funding representing eighty five percent (85%) of these funds (\$ 30,375,777), for 2010-2011, especially from the National Science Foundation (NSF), National Institute of Health (NIH), Department of Education, and the Department of Housing and Urban Development.

The UPRH budget is managed by the administrators through the Budget Office and is based on the following criteria: operations costs, enrollment and the adjusted budget from the prior fiscal year. Nevertheless, ninety percent (90%) of the budget is allocated for payroll and fringe benefits, ten percent (10%) for other expenses (Figure 4). The process of budget allocation is then discussed, evaluated and approved by the UPRH Administrative Board.

Due to the projected decrease in state government funds, the constraints of our economy and the disparity of budget distribution; the UPRH has begun to develop internal mechanisms to improve the administration of fiscal resources and to identify others sources of funds. This is in addition to the UPR Systems precautionary measures established by the Board of Trustees, as the identification of financial allotments where institutional expenses can be cut.

Figure 4: Budget distribution and projections by Category Expenses

Legend:	Programs	Expense Function Codes	Summary by Activity, as described by NACUSO
..1/	Instruction: Academic Programs	100-160	Instructional activities that are associated with academic offerings.
..2/	Research: Research and Development Center	200-260	The category includes expenses for individual and/or project research as well as that of institutes and research centers.
..3/	Community Services: Community and Extension Services	300-360	This subcategory includes expenses for activities organized and carried out to provide general community services, excluding instructional activities.
..4/	Academic Support: Support Services	400-490	The academic support category includes expenses incurred to provide support services for the institution's primary missions: instruction, research, and public service.
..5/	Student Services: Administrative Services of Students	500-580	The student services category includes expenses incurred for offices of admissions and the registrar and activities with the primary purpose of contributing to a student's emotional and physical well-being and intellectual, cultural, and social development outside the context of the formal instruction program.
..6/	Institutional Support: Executive Administration	600-650	The institutional support category includes expenses for central, executive-level activities concerned with management and long-range planning for the entire institution, such as the governing board, planning and programming operations, and legal services; fiscal operations, including the investment office; administrative information technology; space management; employee personnel and records.
..7/	Infrastructure Maintenance and Operation: Maintenance of Facilities	700-790	The operation and maintenance of plant category includes all expenses for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant.
..8/	Auxiliary Enterprises: Rentals and Students Aids	800-962	An auxiliary enterprise exists to furnish goods or services to students, faculty, staff, other institutional departments, or incidentally to the general public, and charges a fee directly related to the cost of the goods or services. The distinguishing characteristic of an auxiliary enterprise is that it is managed to operate as a self-supporting activity.

UPRH FINANCIAL OPPORTUNITIES AREAS

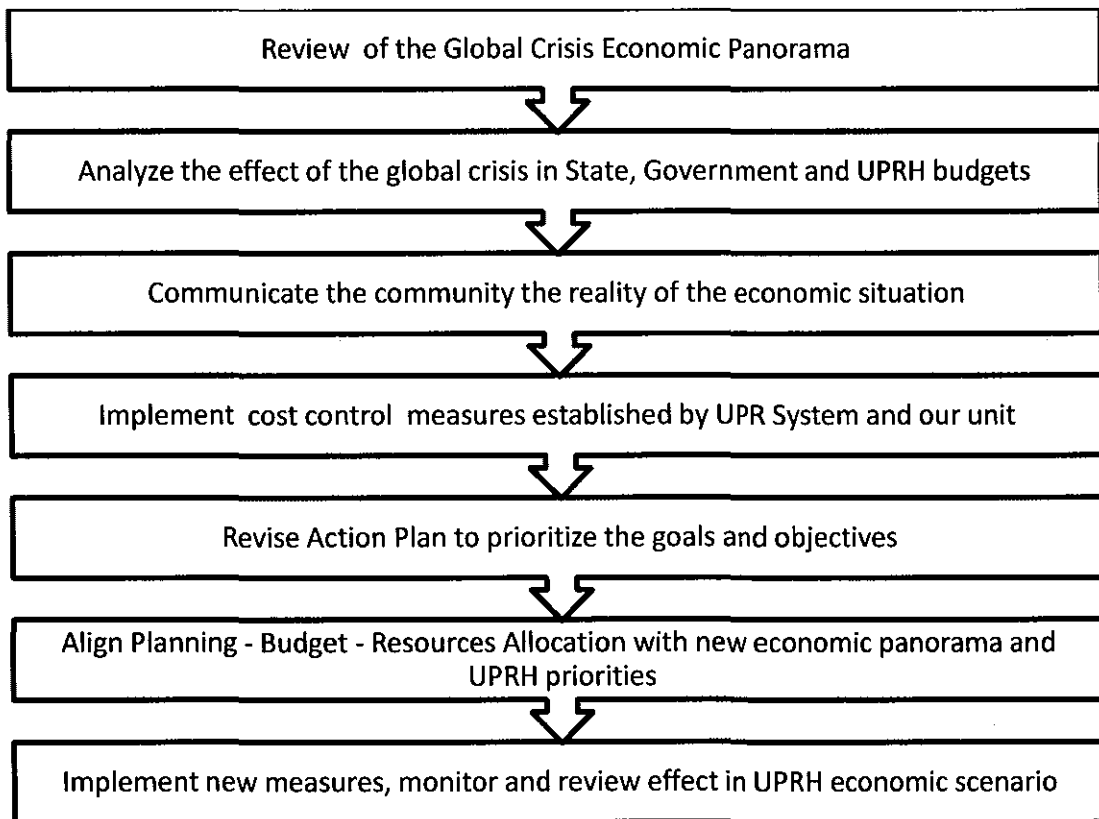

The UPRH is the most important university center of the Eastern Region of Puerto Rico. The global economy constraints and the consequences over the UPR System fiscal scenarios, showed some areas of opportunities in our Financial System. There are many variables that will affect the results that are further illustrated. In order to minimize the effect of this variables, UPRH have to:

- Implement cost control measures to Assure the Financial Health and Sufficiency for the fiscal year 2010-2011
- Prioritize UPRH Goals and Objectives in all levels, according to the Institutional Mission and The Student Success Conceptual Model
- Revise the Multi-year budget projections for the new economic panorama in coordination with the UPR Central Administration
- Guarantee the effective correlation of the operational, strategic and budget planning process, with the new economic panorama in coordination of the UPRH Administrative Board
- Identify other sources of external funds to support compliance with the institutional mission, in order to reduce the marked emphasis in the use of sources from the General Fund and expand the market scope of the one achieved
- Implement a lean and reengineering process to assure UPRH institutional efficiency
- Align the enrollment capacity to budget and planning systems
- Assure the efficient development and use of physical facilities and infrastructure
- Enforce the institutional Ad Hoc Budget and Finance Committee to recommend strategies in order to assess the effectiveness of budget and financial management and identify the best practices of budgeting process

FINANCIAL PLAN GOALS AND OBJECTIVES

An analysis of how the institutional planning process and resources allocation are assigned is already in process by the governance structure. As a result of this analysis, the budget projections and allocations for the period were adjusted and this financial plan with some goals and objectives are discussed and defined by the steering committees, in order to be presented to the UPRH Administrative Board for further approval. This committee includes the UPRH Administrators, Budget Office Director, External Funds Coordinator, Financial Office Director, Accounting and Debt Management Officers and Faculty.

FINANCIAL PLAN MODEL

 - I. In coordination with Student in Free Enterprise Team (SIFE) and Business Administration Faculty, five feasibility studies are already in progress for: University Store, Student Childcare Center, Business Consulting Services, Sport Courses and Rent Spaces. (As of 2010-2011 to 2011-2012)
 - II. Business Proposals with profits projections will be designed and implemented, after further approval by internal and external forums. (As of 2011-2012 to 2014-2015)
 - III. On-going meaningful dialog with constituents were already implemented by UPRH administrators. (As of 2010-2011) (According to GOAL A)
 - IV. A series of workshops and seminars will be implemented to train interested the faculty in business development, in coordination with the Business Administration Faculty.(As of 2011-2012)(According to GOAL A)
 - V. Strengthen the business ventures already implemented: Recycling, Rent Spaces services, Printing Services, among others. (As of 2011-2012 to 2012-2013)
- ✓ Expand the academic offerings of DECEP-UNEX
 - I. The UPR System policy over the UNEX program provides the Institution the ability to retain the revenues and profit of this program for internal use, without UPR Central System restrictions. For this reason, UPRH will strengthen the operational structure of UNEX program and a projected increase over course offering. (As of 2010-2011)

- II. Increase DECEP academic offerings of short-term and technical courses.
(As of 2010-2011 to 2014-2015).

The tuition income for academic year 2010-2011 at DECEP was \$1,364,190; this represents an increase of \$917,265 from last fiscal year (2009-2010). This amount is considered before operating expenses have been covered by the incomes (as reported by Finance Office – March 2011).

- ✓ Enhance the relation with UPRH Alumni

- I. A series of fundraisings strategies will be implemented to reach 20,000 UPRH Alumni (database is already updated by former Alumni Office).
The projected income is \$400,000, the equivalent of \$20.00 by alumni.
(From 2012-2013 to 2014-2015)

- ✓ Promote the development of the intramural

- I. A revision of the intramural practice will be made. These practices will enhance areas of: professional development, community and student services, internships opportunities, among others.

It is foreseen that this source of funds will generate a twenty five percent (25%) of profits after operating expenses have been covered by the income. (From 2012-2013 to 2014-2015)

GOAL F Evaluate the academic and administrative governance structure, in order to promote a better use of resources.

- ✓ Evaluation of academic and administrative operating structure

- I. A situational analysis will be made by the academic and administrative deanships staff to assure a better efficiency in the operations (From 2011-2012) (According to Goal D)
- II. A reduction of the consulting and contract services is already implemented by the administrators (From 2010-2011)

- ✓ Evaluation of academic department's directors, academic counselors and program coordination tasks.
 - I. An operational analysis will be made by the academic deanships to assure the better use of resources. (As of 2012-2013)
 - II. Faculty academic counselors were substituted by UPRH Staff. This represents a projected cost reduction of \$151,329 for 2010-2011 (as reported by Budget Office– March 2011).
 - III. A reduction over the program coordinator tasks and time were implemented. The projected cost reduction for the year is \$50,119 for 2010-2011 (as reported by Budget Office– March 2011).

- ✓ Evaluation of academic programs offerings
 - I. In coordination with units, an evaluation plan will be designed and scheduled by the academic deanships to evaluate programs and courses. The projected output can assure a better UPRH operational efficiency and goals compliance. (As of 2011-2012 to 2013-2014)
 - II. A consolidation of courses is already in progress. (As of 2010-2011)

MONITOR AND REVIEW

The UPRH Organizational Structure was designed to assure compliance with the entire regulatory environment. Also, governmental agencies monitors budget expenditures, use of technology, ethical behavior, contracts, environmental and health regulations, among others. Furthermore, the implementation and control of this financial plan was designed to be managed by the Dean of Administration under the Budget Office and the Financial Team.

The units have to design their own plans in coordination with the budgetary allocations and submit a quarterly report of compliance, according to UPR Central System practices. According to these reports the UPRH governance develops their corrective action of the planning systems, if necessary. Annually reports will be submitted to UPRH administrators.

An institutional Ad Hoc Budget and Finance Committee is already in place to recommend strategies to improve the effectiveness of budget and financial management and better budgeting practices. This process will occur in coordination with all constituents who are in charge of implementing the budget decisions at all levels.
