NEWS | DECEMBER 22, 2020

USA Today: COVID-19 vaccine plan means some states will lag in getting shots to highest-risk groups

The vaccine is allocated according to the number of adults in each state, which doesn't correlate to the number of high-risk people there.

NEWS | DECEMBER 22, 2020

NPR: Vaccines are coming, but the U.S. still needs more testing to stop the surge

Vaccines are finally starting to roll out, but the virus is spreading faster than ever — and killing thousands of Americans daily.

The Johns Hopkins 60-Minute COVID-19 Briefing: Expert Insights on What You Need to Know Now

Friday December 18, 2020 12:00-1:00 ET
As the pandemic surges to dangerous, record-breaking levels, we are launching the first in a series of bi-weekly webcast briefings on the CRC this coming Friday at noon. The series will provide timely, accessible updates on the state of the pandemic and public health responses, and will offer opportunities for live Q&A with leading experts from the Johns Hopkins Coronavirus Resource Center.

NEWS | DECEMBER 14, 2020

Associated Press: US COVID-19 deaths top 300,000 just as vaccinations begin

The U.S. death toll from the coronavirus topped 300,000 Monday just as the country began dispensing COVID-19 shots in a monumental campaign to conquer the pandemic.

NEWS | DECEMBER 14, 2020

ABC News: 'Healing is coming': US health workers start getting vaccine

Health care workers around the country rolled up their sleeves for the first COVID-19 shots Monday as hope that an all-out vaccination effort can defeat the coronavirus smacked up against the heartbreaking reality of 300,000 U.S. deaths.

NEWS | DECEMBER 12, 2020

The New York Times: Young people have less COVID-19 risk, but in college towns, deaths rose fast

As coronavirus deaths soar across the country, deaths in communities that are home to colleges have risen faster than the rest of the nation.
